

BRI00

Nylon Release Fabric

- BR100 is a fluorocarbon coated release fabric based upon the same weave specification as peel-ply B100
- Release coating ensures easier stripping of the fabric from resin rich composites
- Tight weave construction of BR100 gives close control of resin bleedout
- The material is supplied pink in colour for identification purposes
- We do not recommend that this product is used against laminate, which may be subject to secondary bonding or painting. Although the release solution has been fully polymerized, there is, as with all coated products, the potential for transfer onto the component

PHYSICAL PROPERTIES

- Maximum Cure Temperature 180°C
- Release Coating Fluorocarbon based aqueous dispersion
- Fabric Thickness (nominal) 0.10mm
- Fabric Weight (nominal) 60g/m²
- Colour Pink

AVAILABILITY & PACKAGING

- Roll size 100m x 1.52m wide

STORAGE & HANDLING

- No special storage conditions required
