

D300

Nylon Release Fabric

- D300 is a porous, medium weight nylon 6.6 woven fabric
- Has been scoured and heat set, to remove any impurities collected during the spinning and weaving processes
- D300 is not coated with any release solutions and as such will not contaminate your composite part, eliminating the necessity to clean the surface before painting or subsequent bonding operation
- D300 is coloured pink for ease of detection and removal from the cured laminate
